## Phu Quoc's gleaming white sand beaches have earned it the nickname [Pearl Island](https://www.asiatouradvisor.com/phu-quoc-itinerary/?utm\_source=vietnam.travel&utm\_medium=referral&utm\_campaign=phuquoc) , but the island's environmental conservation efforts and cultural heritage deserve as much attention as its picturesque sand and surf. Fishing and agriculture remain primary industries, and more than half the laid-back island has been protected by a UNESCO Biosphere Reserve since 2006.

## Home to fish sauce, pepper, and pearls, Phu Quoc offers both luxury and local life, with clean water by day and clear skies at night.

---

### Phu Quoc's Beaches & Nature

Phu Quoc's 150-kilometer coastline, with gentle waves and transparent turquoise water, makes it Vietnam's most popular destination for water sports. If you'd prefer to lounge, head to Long Beach, which spans 20 kilometers of unobstructed sunsets. Further north, dirt roads and secluded resorts keep tree-lined beaches like Ganh Dau and Bai Thom hidden from crowds.

Adventurous travelers can trek the mountain range that spans the length of the island, but even short walks through the evergreen forest reward explorers with waterfalls, rock pools, and caves.

---

### Culture and Heritage

Phu Quoc is famous for its fish sauce, and it's well worth touring a fish sauce factory to see how this

fermented treasure is made. For a glimpse into everyday life, visit a traditional fishing village like Ham Ninh to eat fresh seafood at a floating restaurant (try it with locally-cultivated black pepper, another delicacy!).

Travelers interested in local culture and history will enjoy educational sites like Cay Dua prison and temples like Cao Dai, where believers follow a unique religion that synthesizes elements of Christianity, Buddhism, Islam, Confucianism, Hinduism, Genie, and Taoism.

#### Phu Quoc Weather - When to Visit

Phu Quoc is warm and comfortable year-round, with an average temperature hovering around 27°C. It's coolest in the dry season between October and March, and hottest in April and May, when the rain begins to take hold. By July, the rainy season is in full swing, bringing cooler temperatures until October.
